

**revolutionizing retail displays:**  
customizable lighting concepts

## Revolutionizing displays with innovation and sustainability

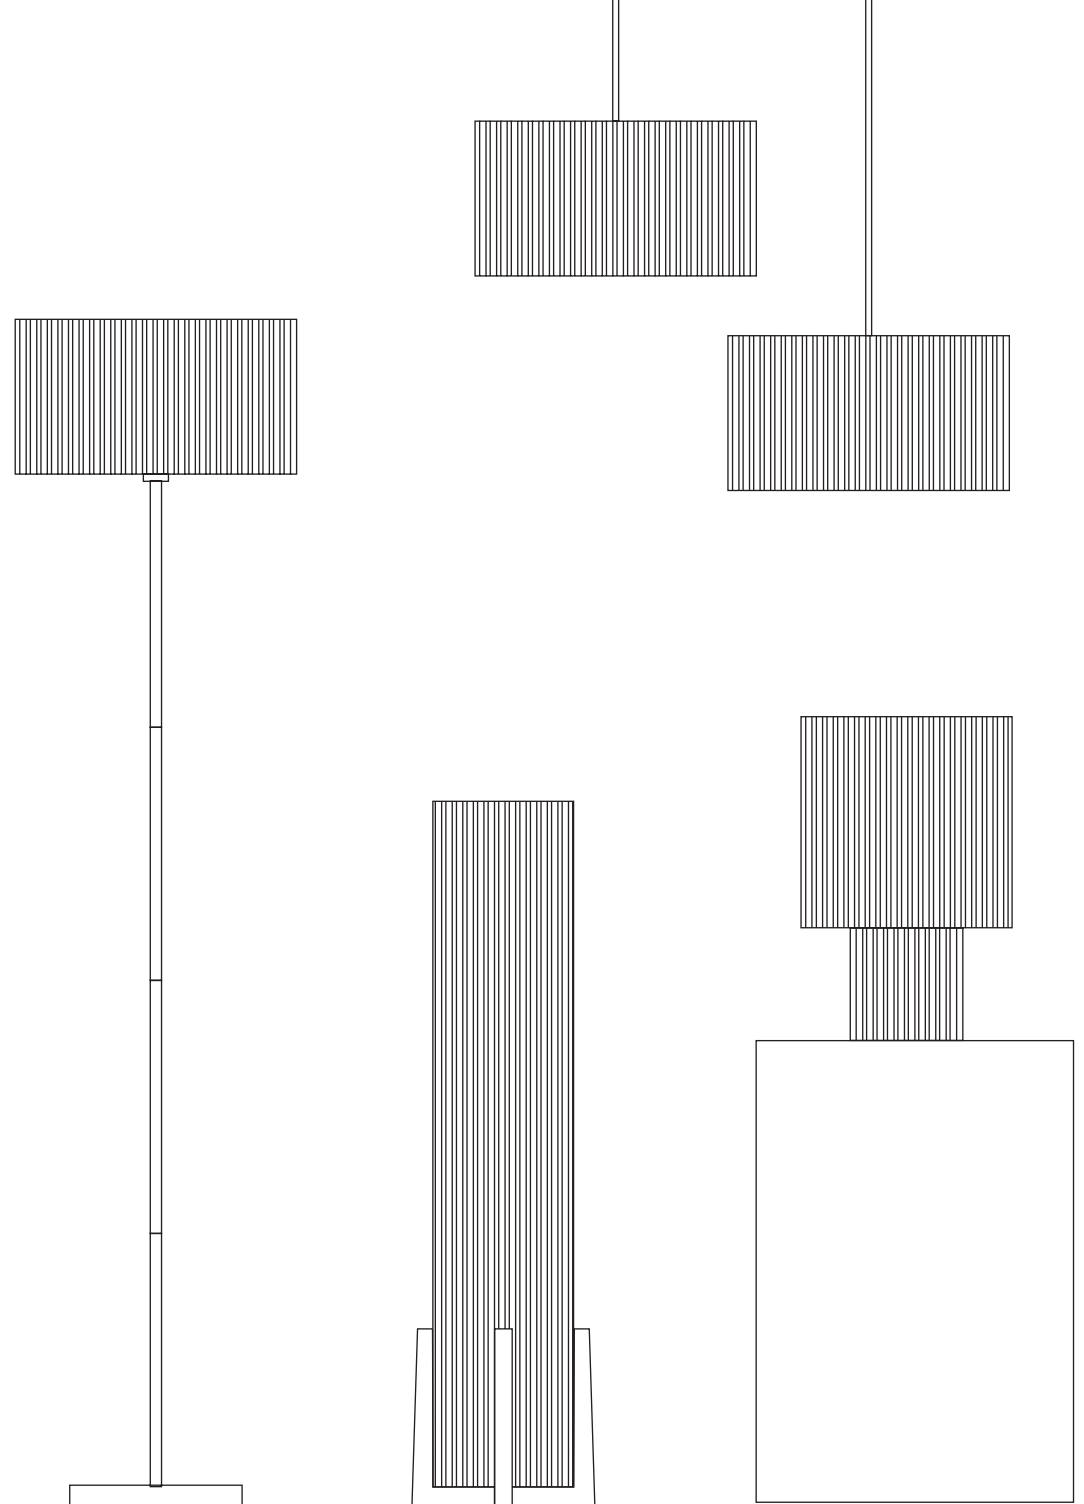

Introducing a game-changing display concept for KD (knock-down) floor lamps, pendant lamps, and table lamps. Combining cutting-edge design with sustainability, this concept transforms how lighting products are presented while addressing modern demands for efficiency and eco-consciousness.

Our KD lighting solutions are engineered for space-saving convenience, featuring knock-down lampshades that minimize packaging size and transportation costs. Despite their compact design, these lamps assemble seamlessly, delivering the same striking visual appeal as traditional shades. With options in diverse fabrics and colors, they effortlessly complement a range of interior styles.

Accompanying these lamps is an FSC-certified honeycomb cardboard display shelf that epitomizes both innovation and environmental responsibility. Its lightweight yet durable structure is designed for tool-free and screw-free assembly, making it quick to set up and reassemble. The material's versatility allows for high-quality custom printing, ensuring the display is as eye-catching as it is functional.

This concept reflects Tangla Lighting & Living's dedication to blending sustainability, practicality, and creativity. Perfect for modern retail environments, it offers a dynamic and impactful way to showcase lighting solutions while prioritizing eco-friendly values.

Discover the future of lighting displays with Tangla Lighting & Living's visionary design approach.

## FSC-Certified honeycomb cardboard

At Tangla Lighting & Living, we proudly feature FSC-certified honeycomb cardboard, a material that exemplifies innovative and eco-conscious design. Drawing inspiration from the natural hexagonal structure of honeycombs, this cardboard is remarkably lightweight yet exceptionally strong, offering outstanding compression resistance and durability. Its hollow-core design minimizes material usage without compromising structural integrity, making it a sustainable and efficient solution.

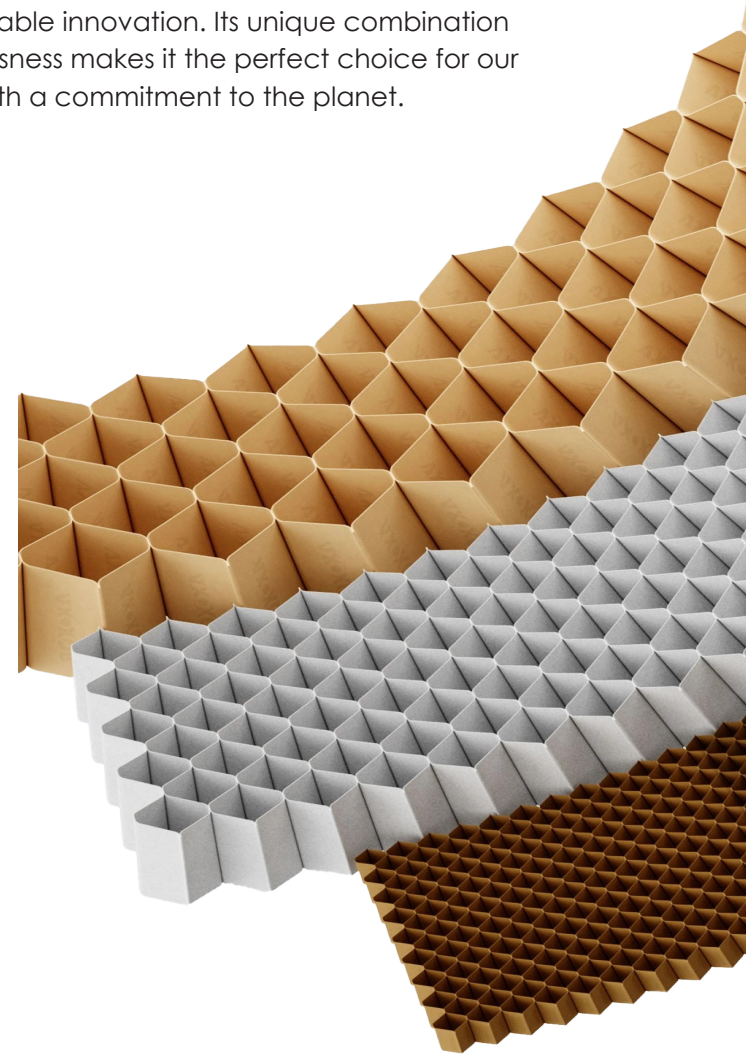

Fully recyclable and environmentally friendly, honeycomb cardboard aligns seamlessly with our dedication to sustainable innovation. Its unique combination of strength, versatility, and eco-consciousness makes it the perfect choice for our display concept, merging practicality with a commitment to the planet.

## Easy assembly & creative versatility

Our FSC-certified honeycomb cardboard display shelf goes beyond eco-friendliness—it redefines ease and functionality. Each component is precisely cut using advanced machinery, allowing for seamless assembly, much like building blocks. With its intuitive design, setup is quick and tool-free, eliminating the need for screws or complex instructions.

The paper-based material offers exceptional versatility, enabling vibrant, high-quality printing for custom designs or branding. This unique feature enhances visual appeal, making your display both engaging and a reflection of your brand's identity. At Tangla Lighting & Living, our display solution masterfully blends sustainability, creativity, and functionality, ensuring an outstanding presentation experience.

## Sustainable Design: Eco-Friendly Displays

At Tangla Lighting & Living, we are revolutionizing lighting solutions with our KD (knock-down) pendant lamps, floor lamps, and table lamps. These innovative designs feature compact packaging, reducing both packaging volume and transportation costs. Once assembled, the lamps deliver the same captivating aesthetic as traditional lampshades.

The KD lampshades are available in a variety of fabrics and colors, offering unmatched versatility to enhance any interior style. Complementing these lamps is our sustainable display shelf, crafted from FSC-certified honeycomb cardboard. This eco-friendly design is entirely tool-free and screw-free, making it easy to knock down and reassemble while reinforcing our dedication to sustainability and functional simplicity.

Discover the perfect blend of practicality, cost-efficiency, and environmental responsibility with Tangla Lighting & Living—where innovative lighting meets mindful design.

## Versatility meets compact design

Tangla Lighting & Living presents an elegant and efficient display solution for our KD pendant lamps, designed to elevate retail spaces while meeting the practical needs of B2B customers. This concept features two versatile display size options: 80x120cm with a pallet and 40x60cm with a pallet. Both sizes are meticulously crafted to align with the transportation requirements of the European market, ensuring seamless logistics and reduced shipping costs.

Our KD pendant lamps redefine compact design. Unlike traditional KD lampshades, our innovative structure allows for complete disassembly. The metal ring is composed of three arc-shaped flat metal tubes that can be effortlessly assembled, significantly minimizing packaging volume. This compact packaging approach ensures cost-effective transportation and storage without compromising on aesthetics or quality.

To offer unparalleled flexibility, we provide an extensive selection of fabrics, colors, and lampshade sizes. Customize your display with unique combinations that reflect your brand's identity and cater to diverse customer preferences. Whether it's bold patterns or subtle hues, the options empower you to create a captivating and personalized presentation in your store.

Tangla Lighting & Living's KD pendant lamp display concept blends functionality with style, offering a cost-effective, sustainable, and visually striking solution tailored for modern retail environments. Elevate your product offerings and inspire your customers with this innovative display concept.

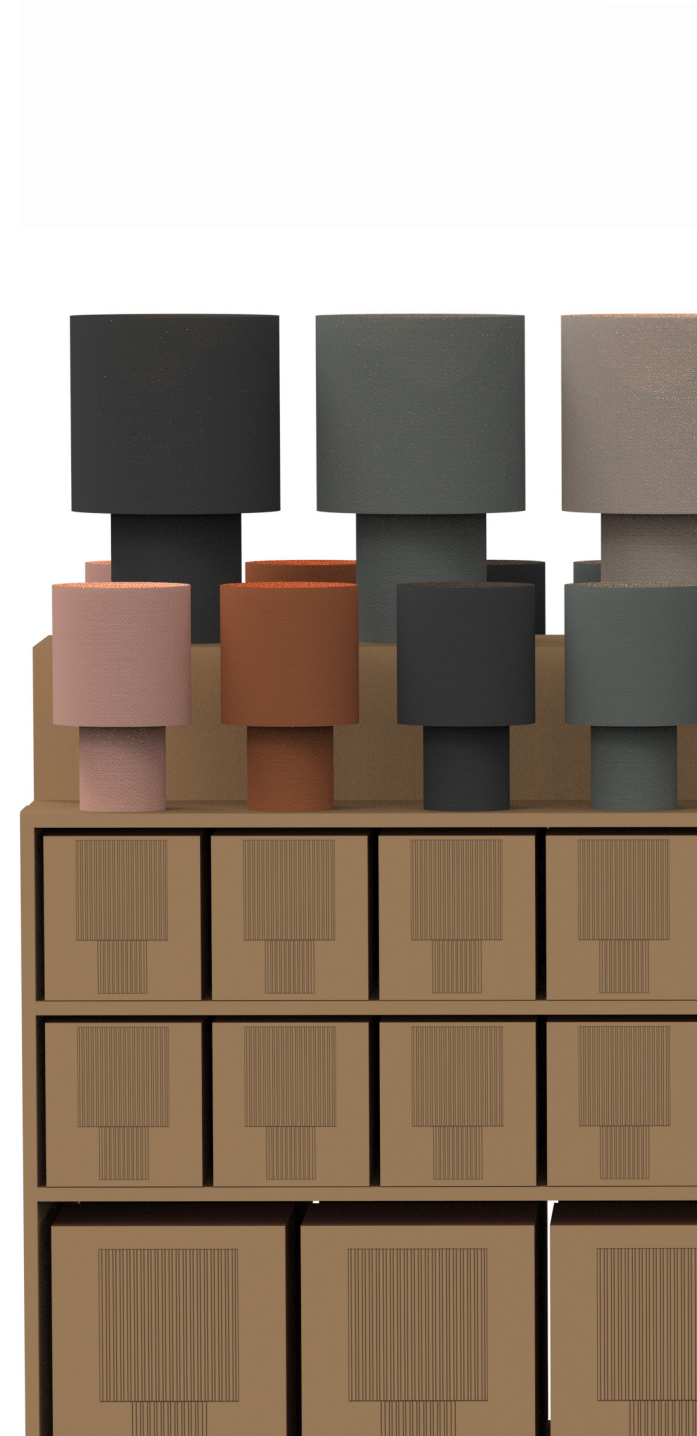

## Compact, affordable, and customizable

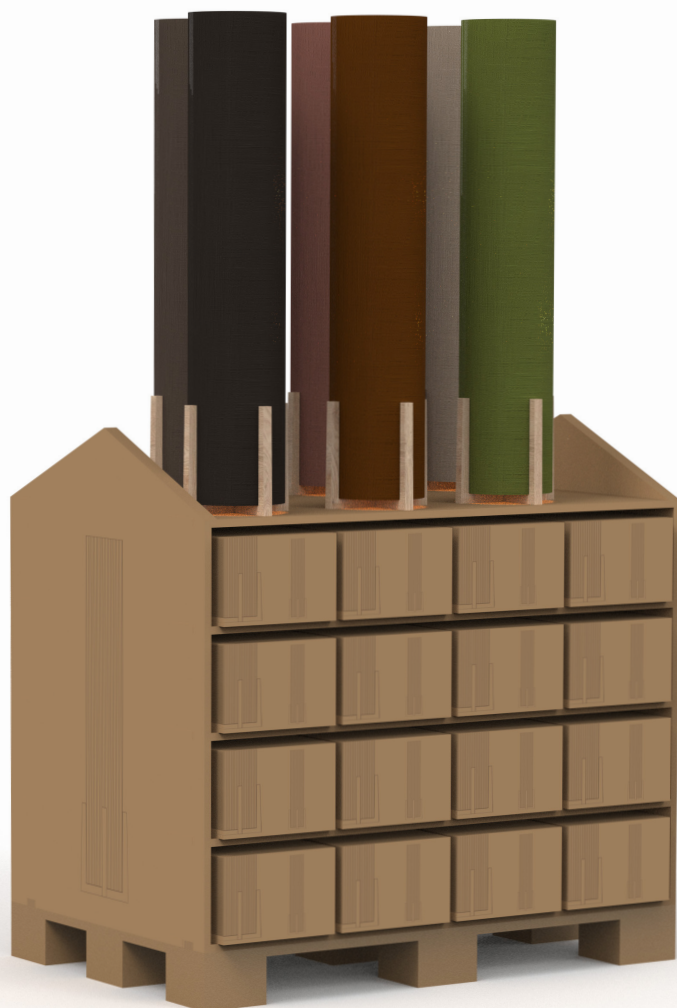

Tangla Lighting & Living presents a unique table lamp concept designed for efficiency, affordability, and personalization. Featuring an overlapping structure, the larger lampshade fits over the smaller lamp base during transit, reducing packaging volume and transportation costs without sacrificing style or functionality.

Made entirely from fabric, the lamp base and shade offer a sleek aesthetic and highly competitive pricing. Enhance your product range further with custom printing—simply provide an image, and we'll create a one-of-a-kind design. For patented images, this adds an exclusive edge to your offerings.

Experience a blend of innovation, sustainability, and individuality with Tangla Lighting & Living's table lamp solution.

## New floor lamp display concept

Tangla Lighting & Living introduces a versatile and efficient display concept for our KD (knock-down) floor lamps, designed to elevate your retail space while ensuring practicality and cost-effectiveness. The floor lamps feature a solid wood base and are available in both 1-light and 2-light options, offering flexibility to suit various interior styles and needs.

The KD structure of the lamps allows for easy assembly and compact packaging, reducing transportation costs without compromising on quality or aesthetic appeal. Just like our other products, the lampshades can be customized in terms of fabric and color, giving you the freedom to tailor the design to match your store's theme. We also offer custom fabric patterns—simply provide us with an image or concept, and we will bring it to life, creating a unique, personalized look for your display.

Tangla Lighting & Living's floor lamp display concept combines functionality with creative potential, offering you the perfect opportunity to showcase a customizable, elegant lighting solution while maximizing efficiency in transportation and storage.

## metal meets fabric elegance

Tangla Lighting & Living proudly presents the second version of our KD floor lamp, an elegant blend of metal and fabric, designed to offer both style and customization. Displayed on a sustainable carton paper shelf, this floor lamp features a fully KD metal base, providing ease of assembly and transportation, while maintaining the strength and stability essential for a high-quality lighting solution.

True to our design philosophy, the lampshade is fully customizable, allowing you to choose from a wide range of fabrics, colors, and metal finishes to create a truly unique piece. Whether you're looking for subtle tones or bold, vibrant shades, the design flexibility ensures the lamp perfectly complements any interior. In addition, we offer the option for custom-printed fabric, allowing you to bring your unique design or branding to life, adding an exclusive touch to your display.

This KD floor lamp concept beautifully combines functionality, creative freedom, and elegance, making it the ideal solution for retailers seeking a high-quality, customizable lighting piece that stands out in any space.
